

CHEMICAL + OIL & GAS + AGRICULTURE + RAIL

Millard Towers offers a complete line of windsock assemblies for a variety of industrial applications - Chemical, Oil & Gas, Agriculture, Rail, etc. Windsocks are made from high-grade materials and designed to provide reliable performance in even the most extreme environmental conditions. All standard designs are kept in stock ensuring on time delivery. Millard Towers also manufactures a complete line of Aviation windsocks. Custom engineering and fabrication services are available. Please consult Millard for additional information.

SWIVEL

Swivels are a single welded unit manufactured from Stainless Steel. The swivel freely rotates using Nylon Bushings. Design comes in standardized diameters of 33cm, 45cm, and 60cm.

FABRIC

Made from UV treated Oxford polyster with the large diameter reinforced with a double layer of material. 1/2" Brass Grommets and supplied UV rated Cable Ties allow for quick and long-lasting installations. Fabric is standardized in the following dimensions and colours:

- 60cm x 240cm, Red/White
- 45cm x 240cm, Red/White
- 45cm x 240cm, Orange
- 45cm x 180cm, Orange
- 33cm x 150cm, Orange

POLES / MASTS

Swivels utilize a standard 3/4" Male NPT to mate to poles or masts. These are typically supplied by others, but Millard can supply one of its Aluminum Poles/Masts used for Aviation applications.

ORDERING INFO

PART NO	DESCRIPTION	SHIPPING DIMS*
WSCK-13HP	Stainless Steel Hoop Swivel - 33cm Diameter	36cm x 46 x 30, 3kg
